

Parts Catalog Atlas

Models: Diesel, Gasoline, & LPG

PREFACE

Thank you for your purchase of the new industry standard for sweepers. PowerBoss® takes great pride in offering the most dependable, reliable and best value in industrial power sweepers and sweeper / scrubbers. We set the standard.

Our Customer Service Department would like to hear from you. If you see any errors, omissions or something that needs clarification in this Parts Catalog please let us know. We are working hard towards continually improving our processes to bring you the best you deserve. Please copy the form below, fill out and comment on how you found our catalog.

Thank you!
The PowerBoss Team

Email: tech@powerboss.com

This is the Parts Catalog for the PowerBoss® Atlas Sweeper machine.

This catalog covers all Standard Atlas machine variations beginning February 2015.

We believe this machine will provide excellent service for many years. Best results will be obtained if:

- The machine is operated with reasonable care.
- The machine is maintained regularly per the maintenance schedule provided in the User Manual.
- The machine is maintained with PowerBoss® supplied or equivalent parts.

All right side and left side references to the machine (except for engine) are determined by facing the direction of forward travel. The front of the engine or engine fan faces the rear of the machine. Some hardware considered to be common or locally available has been omitted from the parts section to make this manual clear. Be sure to use equivalent hardware when replacement becomes necessary.

The Model and Serial Number of your machine is shown on the I.D. name plate. This information is needed when contacting Technical Support or when ordering parts. The I.D. plate is mounted on the left side wall of the operator seating area.

Example ID Plate:

Parts may be ordered by phone, fax or e-mail from any PowerBoss® parts and service center. Before ordering parts or supplies, be sure to have your machine model number and serial number handy. For your convenience Fill out the data block below for future reference.

MACHINE DATA	
Fill out at installation	
Model Number:	_____
Serial Number:	_____
Engine Serial Number:	_____

TECHNICAL SPECIFICATIONS

Model No. PB620DSL, PB620GAS, PB620LP, PB620DSL-DSB, PB620GAS-DSB, PB620LP-DSB

GENERAL MACHINE SPECIFICATIONS

Empty vehicle weight	3500 lbs
Gross vehicle weight	4700 lbs
Sound level target:	83 dBa
Maximum forward speed:	9.8 mph
Maximum reverse speed:	3 mph
Maximum climb angle empty hopper: . . .	14 degrees
(Maximum climb angle)	

SCRUBBING SYSTEM PRODUCTIVITY

Main broom diameter:	14.0 in
Main broom length:	48.0 in
Side broom diameter:	26.0 in
Sweeping path w/ side broom	62.75 in
Optimum main broom pattern width:	2.0 in – 2.5 in
Hopper weight capacity:	1200 lb
Hopper volumetric capacity (less filter box):	16.0 cu ft
Hopper dump height:	to clear 60 in (approx 62 in)
Min. ceiling height for 60" hopper dump:	.8 ft – 6 in
Filter type:	Treated synthetic panel filter
Filter area:	95 sq ft

dimensions shown in inches

This technical drawing shows an exploded perspective view of a mechanical assembly. The components are identified by the following numbered callouts:

- 1:** A long, angled structural member.
- 2, 5:** Two small pins or fasteners at the top left.
- 3:** A small cylindrical component.
- 4:** A small pin or fastener on the right side.
- 6:** A small cylindrical component near the bottom left.
- 7:** A small pin or fastener on the bottom left.
- 8:** A long, angled structural member at the bottom left.
- 9:** A small pin or fastener on the left side.
- 10:** A long, angled structural member in the center.
- 11:** A small cylindrical component on the right side.
- 12:** A small cylindrical component at the bottom left.
- 13:** A small cylindrical component near the bottom left.
- 14:** A small cylindrical component near the top center.
- 15:** A small pin or fastener near the top left.
- 16:** A small cylindrical component on the left side.
- 17:** A small pin or fastener at the bottom left.
- 18:** A small pin or fastener near the bottom left.
- 19:** A small pin or fastener near the bottom left.
- 20:** A small cylindrical component near the center.
- 21:** A small pin or fastener on the right side.
- 22:** A small cylindrical component on the right side.
- 23:** A small pin or fastener near the top center.
- 24:** A small pin or fastener on the right side.
- 25:** A small pin or fastener on the bottom left.
- 26:** A small pin or fastener on the right side.
- 27:** A small pin or fastener near the bottom left.
- 28:** A small pin or fastener near the top left.
- 29:** A small pin or fastener near the top center.

This isometric diagram illustrates a complex hydraulic system with 25 numbered components. The system includes a main hydraulic pump (1) at the bottom center, which feeds into a network of pipes. A large hydraulic cylinder (2) is connected to the main line. A smaller cylinder (3) is also part of the system. A hydraulic valve (4) is located on the left side. A hydraulic filter (5) is positioned near the pump. A hydraulic accumulator (6) is connected to the main line. A hydraulic motor (7) is located on the left side. A hydraulic cylinder (8) is connected to the main line. A hydraulic valve (9) is located at the top. A hydraulic cylinder (10) is connected to the main line. A hydraulic valve (11) is located on the right side. A hydraulic cylinder (12) is connected to the main line. A hydraulic valve (13) is located on the right side. A hydraulic cylinder (14) is connected to the main line. A hydraulic valve (15) is located on the right side. A hydraulic cylinder (16) is connected to the main line. A hydraulic valve (17) is located on the right side. A hydraulic cylinder (18) is connected to the main line. A hydraulic valve (19) is located on the right side. A hydraulic cylinder (20) is connected to the main line. A hydraulic valve (21) is located on the right side. A hydraulic cylinder (22) is connected to the main line. A hydraulic valve (23) is located on the right side. A hydraulic cylinder (24) is connected to the main line. A hydraulic valve (25) is located on the right side.

NOTES

WARRANTY

WARRANTY

Revision J
Effective January 2014
PowerBoss Made Simple Industrial Limited Warranty

Minuteman International owner of PowerBoss warrants to the original purchaser/user that the product is free from defects in workmanship and materials under normal use. PowerBoss will, at its option, repair or replace without charge, parts that fail under normal use and service when operated and maintained in accordance with the applicable operation and instruction manuals. All warranty claims must be submitted through and approved by factory authorized repair stations.

This warranty does not apply to normal wear, or to items whose life is dependent on their use and care. Parts not manufactured by PowerBoss are covered by and subject to the warranties and/or guarantees of their manufacturers. Please contact Minuteman International for procedures in warranty claims against these manufacturers.

Special warning to purchaser -- Use of replacement parts not manufactured by PowerBoss or its designated licensees, will void all warranties expressed or implied. A potential health hazard exists without original equipment replacement.

All warranted items become the sole property of Minuteman International or PowerBoss or its original manufacturer, whichever the case may be.

PowerBoss disclaims any implied warranty, including the warranty of merchantability and the warranty of fitness for a particular purpose. PowerBoss assumes no responsibility for any special, incidental or consequential damages.

This limited warranty is applicable only in the U.S.A. and Canada, and is extended only to the original user/purchaser of this product. Customers outside the U.S.A. and Canada should contact their local distributor for export warranty policies. PowerBoss is not responsible for costs or repairs performed by persons other than those specifically authorized by PowerBoss. This warranty does not apply to damage from transportation, alterations by unauthorized persons, misuse or abuse of the equipment, use of non-compatible chemicals, or damage to property, or loss of income due to malfunctions of the product. If a difficulty develops with this machine, you should contact the dealer from whom it was purchased.

This warranty gives you specific legal rights, and you may have other rights, which vary from state to state. Some states do not allow the exclusion or limitation of special, incidental or consequential damages, or limitations on how long an implied warranty lasts, so the above exclusions and limitations may not apply to you.

	Travel *	Labor	Parts	Engine	Extended Warranty	Costs
Walk Behind						****
Battery Sweepers	90 Days	12 months	12 months	N/A	N/A	-
IC Sweepers	90 Days	12 months	12 months	Through Eng. Mfg.	N/A	-
